Impact through The ILC Knowledge Exchange Cycle

Chronic Pain and Ehlers Danlos Syndrom

- Hypermobility Spectrum Disorder
- Heritable Connective Tissue Disorders
- Craniocervical Instability
- · Chiari Malformation
- Syringomyelia
- Headache/Migraine
- Brain Fog
- Memory Issues
- Cerebral Spinal Fluid Leak
- Chronic Fatigue Syndrome
- Sleep Apnea
- Restless Leg Syndrome
- Eagles-like Syndrome
- Fibromyalgia
- · Gastrointestinal Dysmotility
- Sjogren's/Lupus/Celiac
- Mast Cell Activation
- Mitochondrial Dysfunction
- Dysautonomia
- Neuro MALS
- Vascular MALS
- Skin Issues
- · Joint Problems
- Tethered Cord Syndrome
- Neurogenic Bladder
- Gait Disorder
- Postural Orthostatic Tachycardia Syndrome

Resources

호 오 오

Care for Patients with Heritable Connective Tissue Disorders

Collaborate with national and international networks to improve research and patient care

CONNECT

Build expertise through intensive practice and longitudinal patient care

LEARN

Innovate care pathways for a complex disease cluster through coordinated multidisciplinary practice

PARTNER

Link expert specialist teams with primary care clinicians and therapists in a learning community

SHARE

Partner with health care providers to achieve optimal health and care that is effective, respectful, safe and holistic

INNOVATE

Use technology to bring expert care to patients and create efficiencies

SUPPORT

Connect patients and their families to support networks that reduce isolation

MANAGE

Maximize patient health and coping through selfmanagement support

SAVE

Reduce clinical errors, patient disability and poverty

Advocacy through Member Surveys

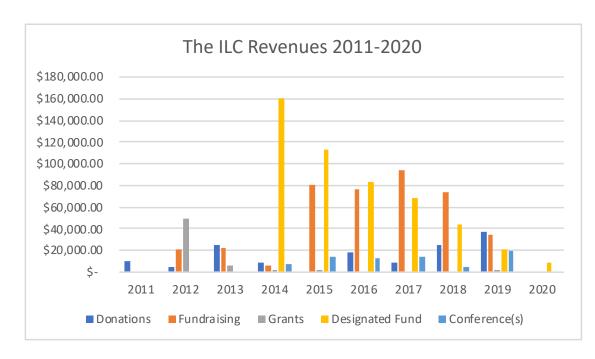

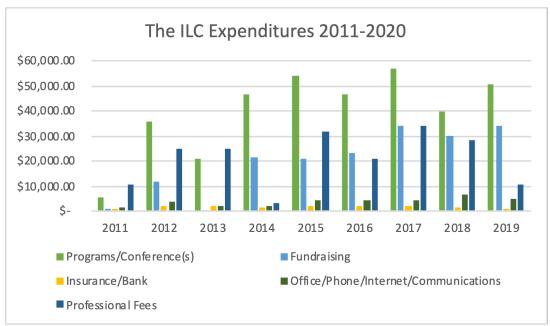

Position Statement

Write to your MPP

FACTS & MISCONCEPTIONS

Facts:

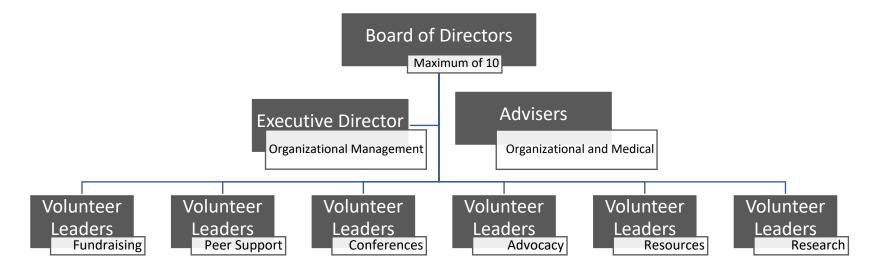

- The ILC on average operates with an annual budget of under \$100,000
- Impact achievements without accountability and responsibility beyond the commitment of dedicated volunteers
- COVID impact cause risk of dissolving if funds are not raised to help us maintain and expand programs with accountability and responsibility

Misconceptions:

- "Foundation' in name helped us build relationships w/Clinicians, Researchers, Institutions including their recent belief we had money to give including funding EDS Clinics
- Belief we have full time paid staff instead of program related expenses expended under consulting fees

Running a Charity: Governing By-Laws, Board of Directors, Advisers, Programs through Volunteer Leaders

Ad Hoc Committees

Research

... mostly, thank you for the friendships that have developed over the years!

People will forget what **you** said, **people** will forget what **you** did, but **people** will never forget how **you made them feel**. Mya Angelou

If **you** want to go **fast**, **go alone**. If **you** want to go **far**, **go together**! African proverb
